Q-1 Read the following passage carefully and answer the questions that follow:

Our forests are important source of natural wealth. They cover one fifth of the country's land area. They supply the timber for railways, house building and furniture making. They also supply the fuel for cooking and the bamboo for making paper.

In the olden days our wisemen and philosophers had their Ashrams in the forests. These ashrams were centres of knowledge and learning. Unfortunately forests had been ruthlessly cut down in the past few years. While the forests are disappearing, the demand for timber is growing. We must, therefore, protect and develop our forests. 'Van Mahotsava' is an important step in this direction. It is observed for a week in July every year. During this week lakhs of saplings are planted throughout the country. This is being done to restore our fast disappearing forests.
